

- Three-piece assembly - a hose barb, fly nut and nipple
- Allows disconnection of the hose from the pump without cutting or removing hose
- Nylon material is safe for most chemicals
- Pressure rating of 10 Bar
- Sizes range from 3/4" to 2".

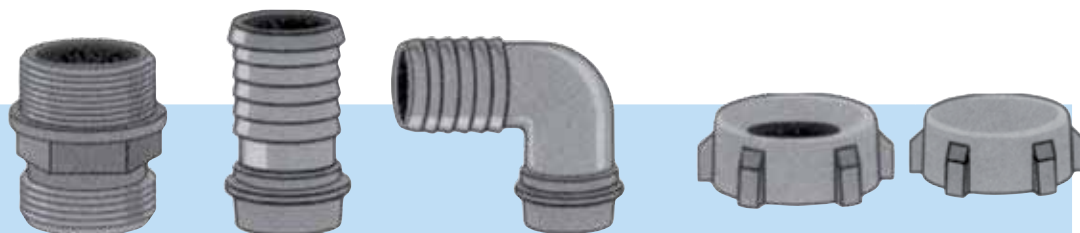

Thread **A** is a conventional pipe thread.

Thread **B** is unique to these fittings and their corresponding Nut or Cap.

Barb = Ø of hose barb on Straight Tail and Elbow Tail fittings
